## FEARED THEY ARE DEAD

PARTY OF EIGHT STARTS OUT  
TO INSPECT BURNING WEST  
VIRGINIA MINE.

NOT HEARD FROM SINCE

Others Go to the Rescue but Are  
Driven Back by Black Damp in a  
Few Minutes—Missing Men Are All  
Prominent in the Coal Field—Fire  
in the Baby Mine Is Again Raging  
Furiously.

Bluefields, W. Va., Nov. 23.—Superintendent Walter O'Malley of the Pocahontas Collieries company, along with State Mine Inspector William Priest, A. S. Hurst, chief coal inspector for the Castnor, Curran and Bullitt company of Philadelphia; Robert St. Clair, chief coal inspector; Morris St. Clair and William Oldham, substitute coal inspectors; Frazier G. Bell, mining engineer, and Joseph Vardwell, manager of the Shamokin Coal and Coke company of Maybury, W. Va., composing a party of eight, entered the West mine of the Southwest Virginia Improvement company's collieries Friday for the purpose of examining the true situation in regard to the recent explosion and fire in the Baby mine, and have not been heard from since. It was supposed that the Baby mine proper had been cut off from the West mine for the purpose of operating the West mine. The large fan in the West mine had been started at an early hour Friday and at 11 o'clock a. m. it was thought that all gases originating from fire in the Baby mine had been forced from the main portion and it was considered safe to enter. At 6 p. m. a party consisting of experienced miners, led by Assistant Superintendent King, entered the mine to rescue the lost party of eight, but at 6:45 they returned, having encountered such quantities of black damp as to make it impossible to enter any distance into the mine. Assistant Superintendent King was completely overcome by the gas encountered and is now in a critical condition. A consultation is now being held in the company's offices at Pocahontas of the different mining experts from the Flat Top field, these experts having been rushed to Pocahontas by a special train. All efforts are being used to recover the bodies of the inspecting party, but no hopes are entertained that any of them will be recovered alive. The secretary and treasurer of the Southwest Virginia Improvement company, C. S. Thorne of Philadelphia, is directly in charge of all movements at the mines. The fire that originally started in the Baby mine over a week ago and which was supposed to have been under control is now burning furiously. All the members of the lost party are prominent in the coal field and the excitement now prevailing at Pocahontas is intense, business having practically suspended. All the members of the party are married, some having large families.

Boy in Pontiac, Ills., Reformatory Kept Twenty-four Hours in a Pillory.  
Chicago, Nov. 23.—An old fashioned pillory system of punishment, which it is claimed has the sanction of the board of directors, of which Bishop Fallows is president, has been unearthed at the Pontiac (Ills.) state reformatory.

## ARE CLOSE TO PANAMA

LIBERALS SAID TO BE IN CONTROL WITHIN TWO MILES OF THE CITY.

MUCH UNEASINESS IS FELT

Attack on the Place Is Expected Momentarily—Revolutionists Are Gaining and Arming Many Recruits. Reported That General Alban Has Been Defeated—Colon Is Quiet and Business Is Resumed.

Colon, Colombia, Nov. 23.—The latest news obtainable here is to the effect that the Liberal general, Lugo, has arrived at Empire Station, distant about 12 miles from Panama, with a force said to number 1,000 men. The Liberals are gaining and arming many recruits along the entire length of the railroad and now control the line up to within a point two miles from Panama. An attack on that city is expected momentarily and much uneasiness is felt there. The Liberal leader, Domingo Diaz, is expected shortly to arrive at Colon.

It is rumored here that Buenaventura, a Colombian port on the Pacific coast, about 400 miles south of Panama, has been taken by the Liberals. Confirmation of this report is lacking. The Liberals here assert that General Lorenzo attacked General Alban's force after it had landed at Chame, near Chorrera, and defeated it, only General Alban and a few of his troops escaping. It is also claimed by the Liberals that the only other division of General Alban's army was routed by General Lugo, when 400 of Alban's troops joined the Liberal ranks.

Marines from the gunboat Machias still guard the station and property of the railroad here. The battleship Iowa will land forces at Panama when the necessity arises.

The Liberals here have already given notice that the ad valorem duty on goods disembarked at Colon will henceforth be 10 per cent, not 20 per cent, as formerly. All the stores in Colon are opened and business has been resumed.

The Colombian gunboat General Pinzon is believed to be along the coast somewhere near Colon, as when she left here she was short of coal.

Transit across the Isthmus is still free and uninterrupted.

WILL NOT INTERFERE.

United States Will Only Maintain Isthmian Communication.

Washington, Nov. 23.—The answer of the Colombian government to the representations of United States Consul General Geiger to the effect that the government was unable to guarantee the integrity of the railroad communication across the Isthmus was purposely developed in order to make perfectly plain the fact that the United States was thoroughly justified in landing its forces at Colon. With this formal acknowledgment from the Colombian government of its inability to maintain communication it becomes, it is said, not the privilege, but the duty of the United States under the treaty of Granada to guarantee that communication, even though the use of force is necessary. It is not intended to interfere between factions, Conservative or Liberal, unless a faction places itself in the position of obstructing the purpose of the United States to keep the Panama railroad open to free traffic.

TO END THE REVOLUTION.

Believed General Reyes Will Accept the Colombian Presidency.

Mexico City, Nov. 23.—General Ospina, late minister of war of Colombia, states that in all probability matters will be arranged whereby General Reyes will return to accept the presidency of Colombia. General Ospina brings with him a letter from San Clemente, the legal president, now confined by the actual president, Marroquin, tendering his resignation.

General Reyes has received a telegram from Marroquin saying he intended to resign and asking General Reyes to assume the office.

General Garcia, who is here in the interest of the revolutionary party, says General Reyes is entirely acceptable to all but a few of the violent partisans.

The proposition to place General Reyes in office, declare a general amnesty and make up a cabinet composed of all the various factions, it is believed, would end the revolution.

PLACE MAY BE BURNED.

Panama Steamship Company Fears for the Safety of Colon.

New York, Nov. 23.—The officials of the Panama Steamship company fear that if General Alban, after the fight at Chorrera, attempts to retake Colon the place is likely to be burned and property worth millions destroyed. They say that during the insurrection of a dozen years ago the Liberals and Conservatives had a fight at Colon and as a result of the conflict the place was burned. Men from the Machias are now guarding property of Americans at Colon.

The propeller Thomas Davidson and consort Aberdeen, coal laden from Buffalo for Milwaukee, are missing and fear it left for their safety.

## IMPOSSIBLE TO LAND FOOD.

Island of Samar Closely Patrolled by American Gunboats.

Manila, Nov. 23.—News received here from the island of Samar is encouraging, although up to the present time there have been no wholesale surrenders of natives. The Filipinos captured there by our troops show evidences of suffering and hunger. The coasts of the island are closely patrolled by gunboats and the use of the searchlight makes it almost impossible for the natives to land food on the island for the insurgents. The patrolling gunboats have captured over \$20,000 in cash and \$100,000 worth of hemp, upon which a tax had been paid to the insurgents, has been confiscated. The system of taxation and the collection of taxes maintained by the insurgent leader, Lukban, was perfect and exhaustive in every particular, and produced revenue from births, deaths, marriages, cock fights and from the fish ponds of Samar. Hemp was the most important feature of commerce. Two per cent of its price was given to the local presidents, who collected the majority of the island's revenue from those natives who had sworn allegiance to the United States and turned it over to the rebel authorities.

It has been officially reported to General Chaffee that the insurgent leader, Cabaalos, has 500 fully armed men, including a number of American negroes, under his command in Laguna province, Luzon. An insurgent officer has just been captured carrying papers dated Mauban, Laguna province, Nov. 18, and signed by Cabaalos. The prisoner admits that Cabaalos has 1,000 men with him and contemplated attacking Mauban. This probably accounts for the fact that recently the telegraph lines were cut near Mauban and in several places the supporting poles were found to have been removed.

Smallpox is raging in the southern islands of the archipelago. The United States Philippine commission is preparing an act to compel everybody to be vaccinated.

REBUKE FOR A JUDGE.

North Dakota Supreme Court Decides Against Lauder.

Bismarck, Nov. 23.—The supreme court has decided the mandamus cases brought against Judge W. S. Lauder of the Fourth judicial district by Attorneys McCumber & Forbes and Froerks & Froerks, for clients for whom they had cases in court which they claimed Judge Lauder would not try or call in another judge to dispose of. The bitterness of the controversy, especially as between Senator McCumber and Judge Lauder, attracted state interest. The upper court holds against Judge Lauder, finding that he has failed and neglected and still fails and neglects to perform his official duty as required by the statutes, and directs Clerk Hoskins of the supreme court to issue a peremptory writ of mandamus directed to Judge Lauder, directing that official to proceed forthwith to arrange for the trial of the cases in question. Costs in the proceedings are taxed against Judge Lauder and he is required to make return to the supreme court on or before December showing what he has done in the matter.

HIS VOICE INJURED BY SMOKE.

Signor Avendano Brings Suit Against the City of St. Louis.

St. Louis, Nov. 23.—Because the throat and lungs of Ferdinando Avendano, leading tenor for the Southwell Opera company, were so irritated and injured by St. Louis smoke that he was unable to sing his part in the opening performance of "La Gioconda," the city of St. Louis and Charles H. Jones, chief smoke inspector, are sued in mandamus proceedings, asking that they be compelled to abate the smoke nuisance forthwith.

The petition avers that Signor Avendano while walking on the street "became enveloped in a dense cloud of foul, black smoke, which had issued from the chimneys of smokestacks," that the singer's throat and lungs were filled therewith, causing an irritated, inflamed and sore condition of his chest and vocal organs so that he was unable to sing his part in the opera.

The smoke inspector is charged in the petition with "recklessly and negligently permitting the said nuisance."

DAMAGING EVIDENCE.

Stewart Fife Accused of Frank Richardson's Murder at Savannah, Mo.

Savannah, Mo., Nov. 23.—Stewart Fife, who was a clerk in a store here, has been formally charged with the murder of Frank W. Richardson in an information sworn to and filed by the prosecuting attorney of Andrew county. Fife has not been arrested, as he left here in June. The special grand jury empaneled at the November term of court investigated the Richardson murder case again, but did not return an indictment. Prosecuting Attorney Booher then filed the information according to law.

Fife said he was asleep in the Owl club at the time Richardson was killed. Admissions by the young man since the murder, however, are said to be damaging, and the prosecution now claims that the ownership of the revolver found near the Richardson home soon after the murder, with which it is believed Richardson was killed, has been traced to Fife.

Nipped Another Conspiracy.

Ex-President Cleveland Ill.  
Trenton, N. J., Nov. 23.—Reports come from Princeton to the effect that ex-President Grover Cleveland is ill at his home at that place. Mr. Cleveland recently returned from a gunning trip and was taken ill with a chill and was threatened with pneumonia. Inquiry at his home elicited the information that he is very much improved. His condition is not understood to be dangerous.

Postoffice Robber Sentenced.  
Mount Vernon, O., Nov. 23.—George Myers, charged with robbing the Centerburg postoffice, pleaded guilty and was sentenced to five years in the penitentiary. He claims that his real name is George Harrison Beer and that his home is in Des Moines, Ia. He previously served three terms in the Southern Illinois penitentiary.

Americans Interested in Korea.  
San Francisco, Nov. 18.—Dr. Horace N. Allen, United States minister to Korea, who has arrived here en route to his former home in Toledo, O., is quoted as saying that American influence is on the increase in Korea, and that American capital is being invested in large amounts in the development of the country's resources. Not less than 80 Americans of large means, he says, are at present engaged in developing mines, building railroads and furthering other big enterprises.

Admiral Lowe and Crew to Remain Under Water Fifteen Hours.  
New York, Nov. 23.—Commanders Nishi and Sata and Lieutenant Ide of the Japanese navy witnessed a trial of the Holland submarine torpedo boat Fulton here during the day. When asked what he thought of the boat Commander Nishi said he would recommend the adoption of the Holland boat by the Japanese navy. After the mile submerged run and porpoise dives the visitors took a trip in the Fulton. Rear Admiral John Lowe, retired, formerly chief engineer of the navy, with Lieutenant Arthur MacArthur, Jr., U. S. N., and four men will spend the night at the bottom of Great South Bay in the Fulton, which is to be tested under water with a crew aboard. The men will descend into the Fulton, lying alongside the company's dock, at 7 p. m. The manhole cover will then be fastened from inside and sealed up airtight. Then, manipulated by her crew, the vessel will sink in 15 feet of water and rest on the bottom. There will be no means of communication between the sunken crew and shore.

After 15 hours the officer in command will have an electric engine set to work. It will pump the water out of the ballast tanks and the Fulton will rise to the surface.

**Opera House Seat Selection.**

The ticket seat plan for the Park Opera House opening will be put up for selection of seats at the McFadden Drug Co. store on Wednesday, Nov. 27, 1901, at the following hours: For parquette seats 9 a. m.; parquette circle 2 p. m., balcony 7:30 p. m. No person allowed to select more seats than called for on one order for tickets.

In order to make the selection the purchaser of a ticket must first secure an order from Secretary La-Bar or F. B. Johnson. These orders will be presented at the above advance selection of seats and in return a ticket will be given.

The lease of the Grand hotel of Fergus Falls to M. R. Curry, which the city council instructed about three weeks ago, has not yet been executed. It appears that Ald. Hille found a possible purchaser of the hotel, in the person of a business man of East Grand Forks, who runs what is probably the finest saloon in the west, outside of Chicago and Helena, and Mayor McMahon preferred to wait the result of negotiations with him, and possibly others, before tying the city up to a lease.

**REDEMPTION OF STAMPS.**

It Will Be Many Months and Perhaps Years Before the Revenue Stamp Business Will be Straightened Out.

Several surprising things have developed in connection with the redemption by the government of uncanceled stamps on bank checks, as provided for in the war tax redemption law, says the St. Paul Dispatch. One is that it will be many months and perhaps years, before the claimants get their checks, and another is the tremendous amount of money involved in the claims.

When it was decided to repeal the tax on bank checks, provision was made for redeeming the unused stamps that were outstanding; it was estimated that there might be \$500,000 worth of these in the hands of banks, merchants and others. The prediction was based on the experience of 1883, when the previous bank check law was repealed, and when the amount paid out for uncanceled stamps was a little more than \$550,000. When the packages of stamps came pouring in the officials were staggered by their size and number.

They began to arrive promptly July 1, when the law was repealed, and have continued ever since. There has been practically no let up in them, and the chief of the division having charge of this work—William A. Johnson—said today that the daily average is nearly 200. Monday brought 250 bundles of various sizes. It is estimated that there are between 15,000,000 and 20,000,000 check stamps on file at the department. The packages are piled up ten feet high for a distance of forty or fifty yards, the entire side of one of the long corridors of the department being taken up by them. The officers are becoming appalled at the slow headway they are making in disposing of the claims. Mr. Johnson yesterday made a statement to commissioner Yerkes, of the number of claims that have been adjusted to date. The total received is over 8,500 and the number adjudicated is only a little over 400. This does not take into account the stamps for cigars, cigarettes and tobacco, which are handled in another division. At the present rate of progress the department will not have settled the last claim for a couple of years or more.

## ATTORNEY MURPHY MUCH WANTED MAN.

It Is Charged That He Has Com-  
mitted a Grave and Ser-  
ious Crime.

LEFT THE CITY A WEEK AGO.

Minneapolis Authorities Are Also  
Interested In the Unfor-  
tunate Matter.

Residents of the city of Brainerd will be surprised and shocked to learn of the disappearance of Attorney Patrick J. Murphy and with this some ugly rumors have been broad- cast throughout the city today, con- necting Mr. Murphy with some very crooked work which has come to light within the past few days.

It seems from claims made by dif- ferent parties interested that Murphy has been guilty of some very crooked work in connection with his loaning business in this city and that a large number of citizens have been worked some to sums ranging about the \$1000 mark.

It is claimed that the means em- ployed by Mr. Murphy and which charge he will be confronted with if brought back to the city, will be for- gery. T. J. Tyler is perhaps the heaviest individual loser in the city, although it is claimed that there have been numerous others who have been worked in different ways.

In the office of the register of deeds of this county, Mr. Murphy is claim- ed to have done some crooked work and in both instances Mr. Tyler is the loser. A mortgage deed dated March 27, 1901, given by August Luckow to D. F. Tyler is one of the instruments. This instrument was security for the sum of \$200.

It is claimed at the register's office that the mortgage deed shows ear marks of a rank forgery throughout. Luckow did give one mortgage on a quarter section of land and secured a loan of \$300. It is claimed that Murphy made an almost exact dupli- cate of the mortgaged deed, forging the name not only of August Luckow to the same, but also the name of Miss Leonora Peabody, deputy register of deeds. In some manner, it is claim- ed, Murphy secured the seal in the office of the register of deeds and it was properly executed. This was turned over to Mr. Tyler and he got \$300 on this deal, so in all Mr. Tyler paid him \$500 as a loan to Luckow, but Luckow received but \$200 of the money. The same kind of instrument is claimed to have been forged, Joseph E. Myers being the purported signer of the mort- gage deed.

The office and furnishings with all the books etc. in Mr. Murphy's pos- session when he left the city have been attached by the sheriff and are now in his possession. Besides the mortgage deeds which are claimed by the officers at the court house to be forged, there are numerous other evidences of crooked work it is claim- ed in the register of deeds office. Some satisfaction of mortgages have been filed which are claimed to be forgeries. It is further claimed that

the work has been carried on through- out the city, not forgeries exactly, but borrowed money etc. which will run into the thousands.

The most recent discovery and perhaps the largest amount of money realized by falsification is in connec- tion with a loan which Mr. Murphy had negotiated for M. K. Swartz of this city from Barnes Bros. of Min- neapolis. The amount of the loan was \$2500. Mr. Murphy carried the deal through all right and when he went to Minneapolis a week ago yes- terday he turned over the papers to Barnes Bros. and it is claimed receiv- ed a check from them for \$2500 made payable to M. K. Swartz of this city.

This check it is claimed was taken by Mr. Murphy and to secure the money on it he forged the name of M. K. Swartz. The check was cash- ed by H. H. Barber, cashier of the Hennepin County Savings Bank, of Minneapolis. Attorney H. P. Roberts, for this bank, is in the city to- day looking up the matter. It had not been discovered until last night by the bank that it was a forgery until Mr. Swartz telephoned down.

Attorney Murphy left the city a week ago yesterday and he had been gone nearly a week before anyone realized but what he was transacting business in the Twin cities as his trips there were frequent. His family and relatives have the respect of the entire city and the blow is a severe one to them, but naturally none will think less of them for the faults of another.

### OPEN GRAND MARIE DITCH.

The State Drainage Board Decides That  
Stagnant Water Has Been Mak-  
ing the Cattle Sick

The state drainage board has de- cided to open the Grand Marie ditch about fifteen miles below Grand Forks to let out a large amount of stagnant water which has been mak- ing the cattle sick. The Grand Marie was at one time the outlet to the Red Lake river into the Red River of the North, but the channel changed a few years ago. The Grand Marie was used as an outlet for drainage ditches until it was closed by sediment. The cost of the proposed ditch, as es- timated by Engineer George Ralph of Crookston, is about \$2,000.

The engineer reported that work commenced Oct. 6 on the Badger and Shunk creek ditch in Roseau county. The contractor had taken out 5,680 cubic yards of earth, and according to the contract which calls for a payment of 85 per cent of the value of each month's work, is entit- led to \$712.13. The new Solomon ditch in Marshall county work was commenced Oct. 12, and 6,662 feet of earth taken out before freezing. The contractor's claim was \$577.59. The Lost River ditch in Beltrami county, which runs through a floating bog, was commenced Oct. 25. The con- tractors took out 1,057 cubic feet of dirt for which a claim of \$107.81 was made. These claims were all allowed by the board.

Work will be commenced on the ditches again as soon as the frost is out of the ground. It is expected that the ditches will be completed by July of next year.

MEETS HER LOVER IN BRAINERD.

Young Couple Arrested As They  
Were About To Leave  
For Duluth.

The police last night picked up a young couple and nipped in the bud a little elopement episode which might have caused the parents of the young lady considerable anguish.

The young girl is but 16 years of age and her name is Miss Lucy Donahue. She doubtless this morning regretted the step she had taken yesterday, and it is more than likely that not many girls of her age have ever gone through the experience which covered her meanderings since yes- terday noon. Her parents live at Merrifield, where her father is sec- tion foreman for the M. & I. His name is William Donahue. She has a sweet looking face, is quite well dressed and her general demeanor would not suggest that she would have the nerve to walk all the way from Merrifield to this city in order that she might keep an appointment with the choice of her heart. This the young girl did and Emil Holm- berg, who lives in one of the small towns east of this city on the Du- luth line, was here to meet her.

They spent the evening in the city and finally went to the Stratton hotel. Here it is claimed that they occupied the same room until nearly midnight. They intended to leave on the early morning train for Duluth, and it is understood that they were to be mar- ried.

It seems that this is not the first time that Emil has shied his castor into the arena of tempestuous op- position from the girl's father. It is claimed that he did not dare go near the girl's home and the boy says that the reason that the old man did not want to make him a part of his household was the fact that he, the boy, did not chew, smoke or drink. He says if he did these things it would have been all right and love's stony pathway would have been smooth. He further claims that the girl was not treated right at home; that the father did not want her at home and then again he did not want her to go away. He would make a good husband he thinks and would provide her a comfortable home.

On the other hand it is understood that Mr. Donahue will prosecute the young man on various charges. The young man is 23 years of age and the girl is but 16. The father may de- cide to have the girl sent to the train- ing school if this course can be taken.

Both young people languished in the city bastille over night.

The young couple had a hearing and Holmberg was held on the charge of abduction, bonds being placed at \$1,000. The hearing was set for Tuesday. The girl was discharged and taken home by her father.

## ATTORNEY MURPHY MUCH WANTED MAN.

It Is Charged That He Has Com-  
mitted a Grave and Ser-  
ious Crime.

LEFT THE CITY A WEEK AGO.

Minneapolis Authorities Are Also  
Interested In The Unfor-  
tunate Matter.

Residents of the city of Brainerd will be surprised and shocked to learn of the disappearance of Attorney Patrick J. Murphy and with this some ugly rumors have been broad- cast throughout the city today, connect- ing Mr. Murphy with some very crooked work which has come to light within the past few days.

It seems from claims made by differ- ent parties interested that Murphy has been guilty of some very crooked work in connection with his loaning business in this city and that a large number of citizens have been worked some to sums ranging about the \$1000 mark.

It is claimed that the means em- ployed by Mr. Murphy and which charge he will be confronted with if brought back to the city, will be for- gery. T. J. Tyler is perhaps the heaviest individual loser in the city, although it is claimed that there have been numerous others who have been worked in different ways.

In the office of the register of deeds of this county, Mr. Murphy is claim- ed to have done some crooked work and in both instances Mr. Tyler is the loser. A mortgage deed dated March 27, 1901, given by August Luckow to D. F. Tyler is one of the instruments. This instrument was security for the sum of \$200.

It is claimed at the register's office that the mortgage deed shows ear marks of a rank forgery throughout. Luckow did give one mortgage on a quarter section of land and secured a loan of \$300. It is claimed that Murphy made an almost exact dupli- cate of the mortgage deed, forging the name not only of August Luckow to the same, but also the name of Miss Leonora Peabody, deputy register of deeds. In some manner, it is claim- ed, Murphy secured the seal in the office of the register of deeds and it was properly executed. This was turned over to Mr. Tyler and he got \$300 on this deal, so in all Mr. Tyler paid him \$500 as a loan to Luckow, but Luckow received but \$200 of the money. The same kind of instrument is claimed to have been forged, Joseph E. Myers being the purported signer of the mort- gage deed.

The office and furnishings with all the books etc. in Mr. Murphy's pos- session when he left the city have been attached by the sheriff and are now in his possession. Besides the mortgage deeds which are claimed by the officers at the court house to be forged, there are numerous other evidences of crooked work it is claim- ed in the register of deeds office. Some satisfaction of mortgages have been filed which are claimed to be forgeries. It is further claimed that

the work has been carried on through- out the city, not forgeries exactly, but borrowed money etc. which will run into the thousands.

The most recent discovery and perhaps the largest amount of money realized by falsification is in connec- tion with a loan which Mr. Murphy had negotiated for M. K. Swartz of this city from Barnes Bros. of Min- neapolis. The amount of the loan was \$2500. Mr. Murphy carried the deal through all right and when he went to Minneapolis a week ago yester- day he turned over the papers to Barnes Bros. and it is claimed received a check from them for \$2500 made payable to M. K. Swartz of this city.

This check it is claimed was taken by Mr. Murphy and to secure the money on it he forged the name of M. K. Swartz. The check was cash- ed by H. H. Barber, cashier of the Hennepin County Savings Bank, of Minneapolis. Attorney H. P. Roberts, for this bank, is in the city to- day looking up the matter. It had not been discovered until last night by the bank that it was a forgery until Mr. Swartz telephoned down.

Attorney Murphy left the city a week ago yesterday and he had been gone nearly a week before anyone realized but what he was transacting business in the Twin cities as his trips there were frequent. His family and relatives have the respect of the entire city and the blow is a severe one to them, but naturally none will think less of them for the faults of another.

Brigands Will Be Given Ten Days to Accept Miss Stone's Ransom.

Sofia, Bulgaria, Nov. 23.—Mr. Dickinson, the diplomatic agent here of the United States, has started for Constantinople, there to confer with Spencer Eddy, the secretary of the United States legation, as to the best means of hastening a solution to the deadlock which has arisen in the negotiations over the release of Miss Stone.

Mr. Dickinson will probably return here bringing with him cash with which to pay Miss Stone's ransom, as her kidnappers insist this payment be made in Turkish gold.

Mr. Dickinson is considering the advisability of presenting an ultimatum to the brigands in which he will fix 10 days as the period within which £10,000 must be accepted by the brigands as Miss Stone's ransom. If this proposal is not accepted by her captors all dealing with the bandits, so far as the United States is concerned, will cease.

If these conditions have not already been dictated by Mr. Dickinson the ultimatum comprising them will almost certainly be delivered as soon as the American diplomatic agent returns from Constantinople.

According to the statement of a person who has recently arrived from Dubnitzka the captives have been removed from a village near Dubnitzka to a point near the frontier, and Miss Stone got wet while crossing the river

## ON HIS OWN RESOURCES

### COMMISSIONER JONES WOULD

REMOVE ALL AID FROM THE INDIAN.

### POLICY MUST BE CHANGED

The Red Man Is No Nearer Independence Than He Was Thirty Years Ago and Under Present Conditions Will Be No Nearer Thirty Years Hence—The Key to the Whole Situation Is the Home.

Washington, Nov. 23.—A policy, which, it is contended, will settle the entire Indian question within a generation, is announced by Commissioner of Indian Affairs William A. Jones in his annual report. His plan is to give the Indian opportunity for self-support, the same protection of his person and property as is given others, throw him upon his own resources and to enforce on him realization of the dignity of labor and the importance of building and maintaining a home for himself. Mr. Jones says that at the outset the Indian must have aid and instruction and necessities will doubtless have to be furnished him until his labor becomes productive. The key to the whole situation, the commissioner suggests, is the home. He makes the emphatic statement that the present Indian educational system, taken as a whole, is not calculated to produce the results that were anticipated so hopefully and may be added to the obstacles to independence and self-support, under which class Mr. Jones has placed indiscriminate issue of rations, periodical distribution of large sums of money and the general leasing of allotments. In the last 33 years, the report says, over \$240,000,000 has been spent on an Indian population not exceeding 180,000. Notwithstanding this the Indian is still on his reservation, being fed, money is still being paid him, he is still dependent on the government for existence and he is little if any nearer the goal of independence than he was 30 years ago, and if the present policy is continued he will get little if any nearer within 30 years to come.

### THE RUSSIAN FAMINE.

Worse Than the Government Seems to Have Anticipated.

St. Petersburg, Nov. 23.—It is becoming apparent that the famine is worse than the government seems to have anticipated, or at least the means now available will suffice for. The zemstvos (local government boards) of many provinces and provincial districts there are sending in daily reports of deep and increasing distress and an appalling scarcity of grain and provender. Not one-half the demands that are made upon the central government can be met from the funds that have been assigned for relief work, and recently there has been a large increase in the number of petitions. As the winter grain sown this autumn failed to sprout the populace is helpless. The reports from many provinces show the dry autumn has disastrously affected the new sowing. From Tomsk, West Siberia, is reported local crop failures and a flight of the peasants back to European Russia. The assignment of money (15,000 roubles) and grain is declared to be insufficient and the hungry peasants have been driven to robbery and even murder.

### MINERS MUST MOVE.

Judge Hall Gives Directions to Adjutant General and Sheriff.

Eastington, Ky., Nov. 23.—Judge Hall's order to the striking miners to disband their camps and disperse becomes operative at daylight. There are fully 350 men in the camp, all heavily armed and declaring they will not abandon their quarters. Officials aver they do not anticipate violence. They believe the men will simply say: "Here we are, what are you going to do with us?"

Judge Hall has prepared his order to Adjutant General Murray and Sheriff Hankins directing them to proceed against the camp if not removed or abandoned and all arrangements are perfected to follow the instructions. Judge Hall declares the miners must go and says all now hinges on their action. The number of men in the camp is constantly increasing and another big tent has been raised.

### THINK THEY ARE CONVICTS.

Four Men Lodged in Jail at Clay Center, Neb., for Theft.

Clay Center, Neb., Nov. 23.—Four men who gave the names of William Purcell, John Brown, Thomas Brady and Fred Brady, brought from Glenville, were lodged in jail charged with the theft of an overcoat, but County Attorney Epperson thinks they are four of the escaped federal prisoners from Fort Leavenworth. The men also attempted to break into the post office and a posse of citizens pursued and captured them. The men appear to be acquainted with court and prison procedure, but refused to talk of themselves.

### CAPTAIN DROWNS HIMSELF.

British Skipper Suicides After Killing the Vessel's Steward.

Mobile, Ala., Nov. 23.—The British bark Nirman Wood, from Rio Janeiro, in charge of Mate Poe, anchored at Mobile quarantine during the day and reported that on Nov. 18 the captain, named Morris, killed the vessel's steward. The body was buried at sea. The captain kept in his cabin, pacing up and down. When informed that Sand Island light was sighted he gave the mate the course, then picked up a sea lead and jumped overboard and was drowned.

### HAS NOT YET BEGUN.

Enemies of President Castro Deny That the Revolution Is Crushed.

Willemstad, Curacao, Nov. 23.—The arrest at Puerto Cabello of Ramon Guerra, the Venezuelan minister of war, who was elected last month to the post of second vice president of the republic, is reported here to have caused much excitement throughout Venezuela. President Castro has called his representative here saying the present revolutionary movement has been frustrated. The truth of his statement is denied here, where it is said this revolution has not yet begun. A steamer, alleged to have on board 5,000,000 cartridges and 15,000 Mauser rifles, destined for the use of Venezuelan revolutionists, is expected to arrive in the West Indies about the middle of December. The representatives of the revolutionary movement now here say the revolt will start after these arms and ammunition are available and that the movement will receive the active or passive co-operation of large numbers of Venezuelans, who, they say, are becoming tired of the existing state of affairs in Venezuela, which is characterized by General Castro's political opponents as the "state of anarchy and persecution created by the Castro government."

From recent reports received here it appears that a number of inoffensive traders and citizens, incapable of starting a revolution, have been arrested in Venezuela at the government's orders. It is further said that these political prisoners are to be held as hostages for a premeditated forced loan by the government.

### Suggests a Volunteer Corps.

London, Nov. 23.—The Statist suggests that the large business centers throughout the country whose interests are injured by a continuance of the war in South Africa should raise and equip a mounted volunteer corps for service and that the wealthy classes should subscribe the necessary funds. The proprietors of The Statist offer to start the subscription with 1,000 guineas.

### To Become a Colombian Gunboat.

London, Nov. 23.—The steamer Banagh, which was detained here this week by the British authorities on the suspicion of being a Boer filibuster, has been released and will proceed to Hamburg. A member of the vessel's crew is authority for the statement that the Banagh will then proceed to Colon, where she will be used by the Colombian government as a gunboat.

### Will Not Allow Mine to Open.

Vincennes, Ind., Nov. 23.—The situation at Prospect Hill mine remains unchanged. State Commissioner of Labor McCormick is here from Indianapolis trying to effect a settlement. The union men declare the mine will not be allowed to be opened until the union scale is in force.

### Strike for Shorter Hours.

Youngstown, O., Nov. 23.—All the freight handlers at the Pennsylvania freight depot here joined the Erie freight handlers in the strike for a reduction from 10 to 9 hours without reduction in pay. Efforts are being made by Erie officials to effect a settlement with them.

### Alleged Murderers Escape.

Knoxville, Tenn., Nov. 23.—A special from Sneedville, Tenn., says James Wright and John Templeton, alleged murderers of Deputy Sheriff Clinton Legear, shot and seriously wounded Enoch and John Gillem, who had been deputized to arrest them. Wright and Templeton escaped.

### TELEGRAPHIC BREVITIES.

A 50,000,000-foot gas well has been struck near Tipton, Ind. This is the largest on record.

Admiral Schley has accepted an invitation of the Hamilton club of Chicago to be its guest of honor at a dinner to be given at some future date.

At Jellico, Tenn., John T. Smith instantly killed his son-in-law, Frank Starr, because the latter, while drunk, whipped his wife. Smith then surrendered.
